# PERSONAL PROJECT

## 1.Bed Allocation System For Managing Hospital Resources

The Bed Allocation System streamlines hospital operations during crises like COVID-19 by providing real-time data on bed availability and doctor schedules. It enhances accessibility with features like appointment booking and remote consultations while maintaining data security, ultimately saving lives during emergencies.

## 2.Portfolio Website

Developing a portfolio website to showcase my skills, projects, and educational background in web development. Utilizing HTML and CSS, I am crafting a clean and visually appealing platform to highlight my expertise and accomplishments. The portfolio will provide a comprehensive overview of my capabilities and aspirations in the field of web development, demonstrating my commitment to professional growth and innovation.
